

BYTES & COFFEE · AN INDEPENDENT STUDIO

Questionable ideas.
Unreasonable care.

Things Michael Yazdani makes, writes, and stays up too late for. Warm and bookish on the outside. Precise on the inside.

THE FAMILY

One parent. A few *bad* decisions.

B

BYTES &
COFFEE

The studio, and the blog of notes, links, and longer thoughts.

B

BAD
DECISIONS

An absurdly overengineered party game engine.
bytes.coffee/bad-decisions

Peer Pressure

Bad Decisions, live in the same room. Plain type; never its own logo.

\$ regret

The terminal client. Regret in prose, **regret** when typed.
brew install bytesandcoffee/tap/regret

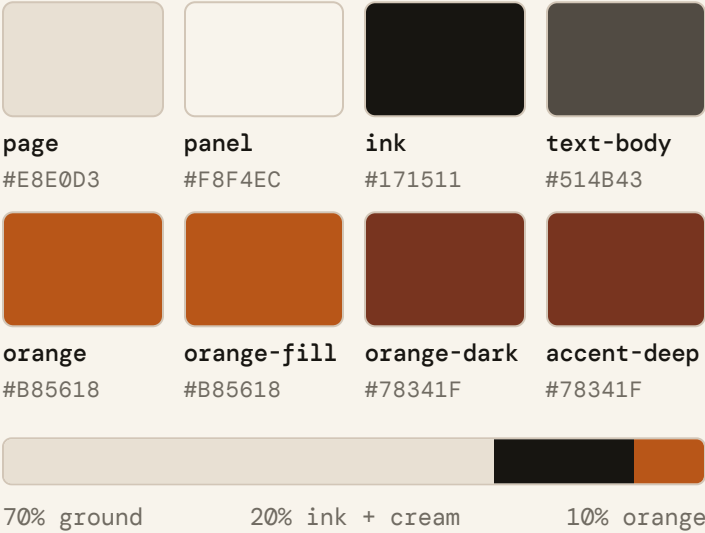

R

DAILY
REGRETS

A Bluesky bot. One card every morning.
@regret.bytes.coffee

COLOUR

Paper, ink, and
burnt orange.

Orange is for fills and big type. Small orange text uses orange-dark. Never more than one orange hero on screen. Every text pair clears 4.5:1.

TYPE & VOICE

Three families.
One job each.

AaFraunces
Headlines, cards, titles. ExtraBold, tight.

AaManrope
Everything people read at length.

AaDM Mono
The machine's voice: kickers, commands.

Make a terrible decision.
Same room. Full screen.

\$ Peer Pressure faltered: Regret alone
