

BYTES & COFFEE · AN INDEPENDENT STUDIO

Questionable ideas. *Unreasonable* care.

Things Michael Yazdani makes, writes, and stays up too late for. Warm, dark, and bookish on the outside. Precise on the inside.

THE FAMILY

One parent. A few *bad* decisions.

The studio, and the blog of notes, links, and longer thoughts.
bytes.coffee · blog.bytes.coffee

An absurdly overengineered party game engine.
bytes.coffee/bad-decisions

Peer Pressure

Bad Decisions, live in the same room. Plain type; never its own logo.

\$ regret

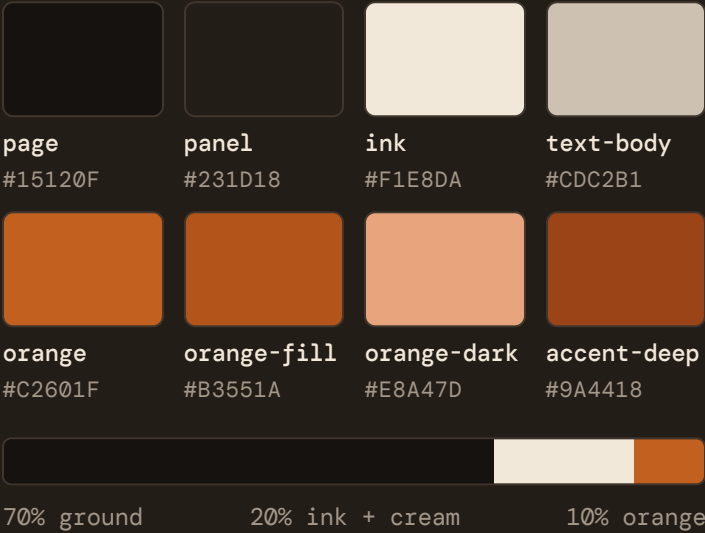

The terminal client. Regret in prose, *regret* when typed.
brew install bytesandcoffee/tap/regret

A Bluesky bot. One card every morning.
@regret.bytes.coffee

COLOUR

Espresso, cream, and *burnt orange*.

Orange is for fills and big type. Small orange text uses orange-dark. Never more than one orange hero on screen. Every text pair clears 4.5:1.

TYPE & VOICE

Three families. *One* job each.

Aa Fraunces
Headlines, cards, titles. ExtraBold, tight.

Aa Manrope
Everything people read at length.

Aa DM Mono
The machine's voice: kickers, commands.

Make a terrible decision.
Same room. Full screen.

\$ Peer Pressure faltered: Regret alone
